#### **DETAILED ACTION**

#### Claims

1. Claims 1-30 are pending.

## Applicant's Response

2. The response dated March 28, 2002 (Paper No. 15) presented arguments but did not amend the claims.

## Rejections Withdrawn

3. The 35 USC 103 rejections set out in sections 7 and 9 of the Office Action of December 31, 2001 (Paper No. 14) have been withdrawn in view of the arguments set out in Paper No. 15.

The Examiner notes that the use of 66.7% ethylene (calculated based on the Japanese teaching) is suggestive of the 67% recited in claims 1 and 14. However, the use of larger amounts of ethylene is not suggested by the Japanese disclosure.

### New Rejection

### Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

  The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 14 call for the use of copolymers of 67 to 75% i) ethylene and 15 to 40% of iii) C  $_{3-10}$  alkylene monomers along with ii) 0 to 30% polyene. However, if one

Application/Control Number: 09/138,926

adds 40% [the maximum amount of iii)] to either 67% or 75%, one gets 107% and

115%, which cannot exist.

Please clarify the claims.

Response to Arguments

Applicant's arguments with respect to claims 1-30 have been considered but are 6.

moot in view of the new ground(s) of rejection.
